Purpose of processing (Why are we processing)	Categories of personal data (What we are processing)	The source of the personal data (Where did we get it from?)	Description of Processing Activity (How we are processing)
Attendees and sponsors registration and payment for MoodleMoots organised by Moodle directly	Identity & Profile (email address, name, organisation, occupation (job title, role, sector), Moodle experience, languages spoken, dietary requirements, access requirements), Contact (address, Telegram handle), Party Guest identity and contact (guest name, email & dietary requirements, access requirements), Financial & Transaction (payment details), Marketing and communications, Technical and Usage (IP address, resource access, traffic)	Data subject (You)	Eventsforce events management system - registration, abstract and website management
Presentations' admission process run by Event department for MoodleMoots organised by Moodle directly	(same as above) + personal presentation, summary of applicable presentations	Data subject (You)	Personal data of presentations submitted for MoodleMoots by presenters and published on moodle.com/events
Sending notifications to MoodleMoots attendees that have downloaded the MoodleMoot application for the conference	Identity, contact details (name, surname and email), financial, transaction, marketing and communications	Data subject (You)	Personal data of Moot participants that download the Eventsforce MoodleMoot Global mobile application
MOOC participants information	Identity & profile (name, email, city, country, timezone, description, photo - Gravatar or manual upload, additional names, interests, institution, department, phone, address, Twitter, LinkedIn, FaceBook, Google+, ICQ number, Skype ID, AIM ID, Yahoo ID, MSN ID, Web page), activity and contribution, course results, IP address	Data subject (You)	Learn Moodle https://learn.moodle.org
Moodle Educator Certification program and facilitator training	Identity & profile (name, email, city, country, timezone, description, photo - Gravatar or manual upload, additional names, interests, institution, department, phone, address, Twitter, LinkedIn, FaceBook, Google+, ICQ number, Skype ID, Yahoo ID, Web page), activity and contribution, course results, IP address	Data subject (You) and Moodle Partner that enrolls data subject	Moodle Educator Certificate (MEC) program - https://education.moodle.com/login/index.php
Course hosting service	Identity & profile (name, email, city, country, timezone, description, photo - Gravatar or manual upload, additional names, interests, institution, department, phone, address, Twitter, LinkedIn, FaceBook, Google+, ICQ number, Skype ID, Yahoo ID, Web page), activity and contribution, course results, IP address, Chargebee payments (customer id, invoice number, transaction number), payments (amount, currency, payment gateway - Chargebee)	Data subject (You)	Moodle Academy https://moodle.academy
User registration	Display name, email address, location, avatar, header image Optional inclusion: workplace, origin, political opinions, religious beliefs, gender, sexuality, accessibility requirements	Data subject (You)	Registration details
Describing communities, collections, or shared resources	Descriptions, language, metadata Optional inclusion: interests, occupation, location, workplace, location, origin, political opinions, religious beliefs, gender, sexuality, accessibility requirements	Data subject (You)	Resource metadata
Ensuring the service is accessible to all users	Optional inclusion: accessibility requirements	Data subject (You)	Accessibility
Sharing created courses with other Moodle users worldwide	Personal data for course creators	Data subject (You)	Moodle.Net
Sending e-newsletters, leads to Partners	Name, email, phone number, country of subscribers, organisation name, organisation type, department	Data subject (You)	Personal data on Moodle.com (all contact forms) - https://moodle.com/contact/
Sending newsletters	Contact details (name, surname and email)	Data subject (You)	MailChimp marketing email
Nurture EDM's	Contact details (name, surname and email), job title, phone, country, organisation name	Data subject (You)	Salesforce marketing automation solution (Pardot)
Project management tool	Contact details (name, surname and email), phone number, country, organisation name, department	Site admin	Project management using Notion
Automation form for sending contact details to the relevant database	Contact details (name, surname and email)	Data subject (You)	Workflow automation provided by Zapier

Register of GDPR Information			
Purpose of processing (Why are we processing)	Categories of personal data (What we are processing)	The source of the personal data (Where did we get it from?)	Description of Processing Activity (How we are processing)
Google Analytics is used to measure pageviews on all Moodle websites and solely for statistical purposes on an aggregated basis	User's IP address, geographical location and browser information	Data subject (You)	Google Analytics
Create a MoodleCloud site	Contact details (name, surname and email), location, telephone number (optional)	Data subject (You, the MoodleCloud site admin)	Customer signing up to MoodleCloud
Process payments for initial subscriptions, upgrades and renewal	Contact details (name, surname and email), billing country, email (if using Paypal), payment method details	Data subject (You, the MoodleCloud site admin)	Payment processing
Manage subscriptions and renewals, calculate and report on required taxes	Contact details (name, surname and email), billing country	Data subject (You, the MoodleCloud site admin)	Subscription management and tax calculations
Warn MoodleCloud site owners of impending automatic subscription processing (renewal, cancellation, etc.)	Contact details (name, surname), email address (if using Paypal) and other payment method details (but excluding credit card number and CCV)	Data subject (You, the MoodleCloud site admin)	Subscription event processing
Sending emails to MoodleCloud admins regarding the MoodleCloud service	Contact details (name, surname and email), financial data	Data subject (You, the MoodleCloud site admin)	Emails sent by MoodleCloud
Infrastructure and product monitoring	Country, website URL	Data subject (You, the MoodleCloud site admin)	Internal dashboards
Monitoring and troubleshooting MoodleCloud sites and infrastructure	Location, IP address, contact details (name, surname and email), country, Moodle activity data	MoodleCloud site admins and MoodleCloud site users	Log aggregation and analysis from LogsHero Ltd.
Operational reporting on MoodleCloud servers and sites	Location, IP address, Moodle activity data when error occur	Data subject (You, the MoodleCloud site admin)	System monitoring and performance analysis from NewRelic Inc.
Messaging between MoodleCloud site users	Contact details (name, surname and email)	MoodleCloud site admins, MoodleCloud site users	Email sent from MoodleCloud sites
Conversion of assignments from various formats, as part of expected service	Any personal information submitted within assignments (including contact details (name, surname and email), address, phone number, photographs (if provided)).	MoodleCloud site admins, MoodleCloud site users	Document conversion for Moodle's Assignment module
Offer web conferencing features to MoodleCloud site users	Any personal information submitted within assignments including contact details (name, surname and email), any data submitted during the session	MoodleCloud site users	Web conferencing and whiteboard from Blindsight (Big Blue Button)
Keep MoodleCloud sites users data (eg. files) safe and available for later use	Any personal information submitted within the site or course (including contact details (name, surname and email), address, phone number, photographs (if provided)).	MoodleCloud site admins, MoodleCloud site users	Storage of MoodleCloud sites' data
Onboarding experience of new users for MoodleCloud services by providing support and guidance on how to use MoodleCloud effectively. Additionally, we aim to keep our customers informed about new products, services, and updates related to Moodle and MoodleCloud through marketing and product update communications	Name, surname, email, country, Moodle activity data	MoodleCloud site users	Trialist and customer onboarding experience
Hosting client sites and storing data	User details	Data subject (You)	Amazon AWS
Calendar scheduling tool	Contact details (name, surname, email, phone number)	Data subject (You)	Scheduling using Calendly software platform
Authentication and authorisation software	Login session, IP address, user-agent, and the web application name and website address	Data subject (You)	Authentication and authorisation using Okta
