Importance of Moodle @AGU

- Battle between Paid and Free LMS systems. A common misconception
- User friendly (Age barrier and resistance to change)
- Streamlined the entire curriculum covering all aspects of teaching and learning process.
- A single login to access all content and activities.
- Supports integration and embedding of most content types such as pics and videos which is essential for teaching medicine.
- Can define roles and access to ensure confidentiality.
- Online remote access to part time and practicing faculty (A game changer)
- Eliminate the need of multiple platforms across different activities.
- Courses linked to learning outcomes for better insight to learning
