

Moodle 3.5: What's new?

Sander Bangma

Open Source Development Coordinator

#MootES18

@sanderbangma

What's new in Moodle 3.5?

- **Site administration**
- Course management
- All users
- Mobile app

Site administration

- **GDPR**
- New capabilities
- Simple global search
- LTI Advantage support
- Cohort themes
- Badge criteria

General Data Protection Regulation

- EU regulation for **protection of personal data** for all EU citizens
- Aim is to harmonise data privacy laws, set new standards for data privacy and **empower individuals** with control over their personal data
- Affects privacy worldwide

New in Moodle 3.5:

- Privacy settings
- Policy settings
- Features for management of personal data

Also available as plugins for Moodle 3.3 and 3.4

Policy settings

Site policy handler
sitepolicyhandler

Policies (tool_policy) ▼ Default: Default (core)

This determines how policies and user consents are managed. The default (core) handler enables a site policy URL and a site policy URL for guests to be specified. The policies handler enables site, privacy and other policies to be set. It also enables user consents to be viewed and, if necessary, consent on behalf of minors to be given.

Site policy URL
sitepolicy

Default: Empty

The URL of the site policy that all registered users must see and agree to before accessing the site. Note that this setting will only have an effect if the site policy handler is set to default (core).

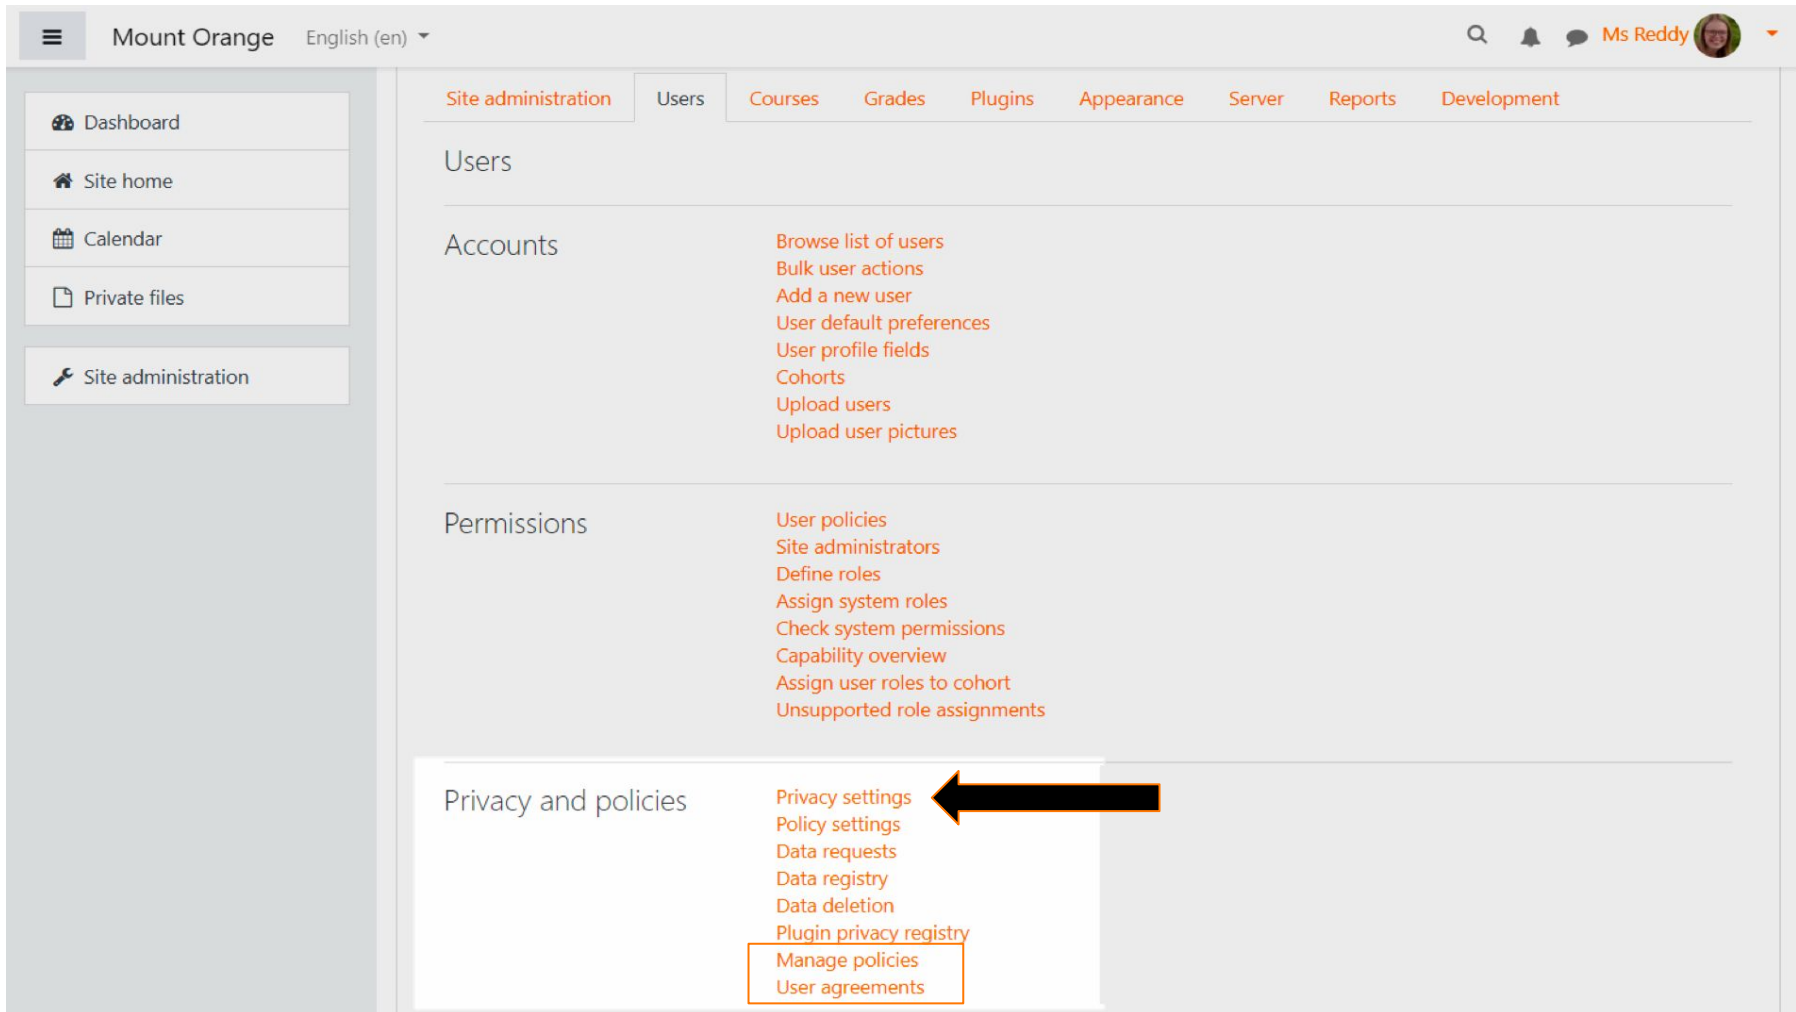

Site policy URL for guests
sitepolicyguest

Default: Empty

The URL of the site policy that all guests must see and agree to before accessing the site. Note that this setting will only have an effect if the site policy handler is set to default (core).

The screenshot shows the Moodle Mount Orange administration interface. The top navigation bar includes 'Mount Orange', 'English (en)', a search icon, a notification bell, a chat icon, and a user profile for 'Ms Reddy'. The left sidebar contains links to 'Dashboard', 'Site home', 'Calendar', 'Private files', and 'Site administration'. The main content area is divided into three sections: 'Users', 'Permissions', and 'Privacy and policies'. The 'Privacy and policies' section is highlighted with a white background and a black arrow pointing to it from the right. The 'Privacy and policies' section contains the following links: 'Privacy settings', 'Policy settings', 'Data requests', 'Data registry', 'Data deletion', 'Plugin privacy registry', 'Manage policies', and 'User agreements'. The 'Manage policies' link is highlighted with a red box.

Please read our Privacy policy

The privacy policy describes how information about you will be collected and stored, and whether it will be shared.

Privacy and personal data

We take your privacy very seriously. In order to provide access to the service, we must collect and store some personal information about you, as below:

What is collected?

Basic profile information is collected from you when you create your account including your full name and email address.

As you use the site, information about the users, courses, activities and resources you interact with will also be stored and linked to your profile information.

How is this information used?

This information is only used to provide you access to the online courses on this site.

How long is my data stored?

Your personal data is stored as long as you are enrolled in one or more online courses on this site. Course data is deleted 6 months after the end date for each course and profile information will be anonymised when an account has not been accessed for 12 consecutive months. 1

LTI Advantage

IMS GLOBAL
Learning Consortium
Better Learning From Better Learning Technology

INITIATIVES ▾ DEVELOPERS ▾ CERTIFIED PRODUCTS ▾ LEARNING IMPACT ▾ LEADERSHIP ▾

LTI Advantage: Deep Integration at the *Speed of Now*

The next step in accelerating the movement toward a fully integrated and innovative digital ecosystem based on open standards.

Learning Tools Interoperability® (LTI®) revolutionized the way educators and students access digital learning resources, apps, and tools within any learning management system (LMS) by enabling a one-click, seamless connection. LTI is currently implemented in over 70 learning platforms and hundreds of learning apps and tools, and it is the only educational technology industry standard that securely connects your institution's LMS with external learning tools, confirms the tool's credentials, and exchanges information in a teaching and learning workflow.

Now, IMS Global Learning Consortium is enabling better teaching and learning experiences through **LTI Advantage**.

LTI Advantage is a package of **extensions** that build on the core LTI standard (v1.3) to add new features that enable deeper integration of any tool with any LMS. LTI Advantage makes it easier for faculty to innovate and meet the unique learning needs of students, save time spent provisioning courses, and dramatically reduce integration times. Currently, the LTI Advantage extensions are Names and Role Provisioning Services, Deep Linking, and Assignment and Grade Services.

[Download as PDF](#)

Names and Role Provisioning Services

Enables sending a list of course participants and faculty defined groups to learning tools.

Deep Linking

Enables a more intuitive way to add content and links to a platform from a learning tool or publisher content.

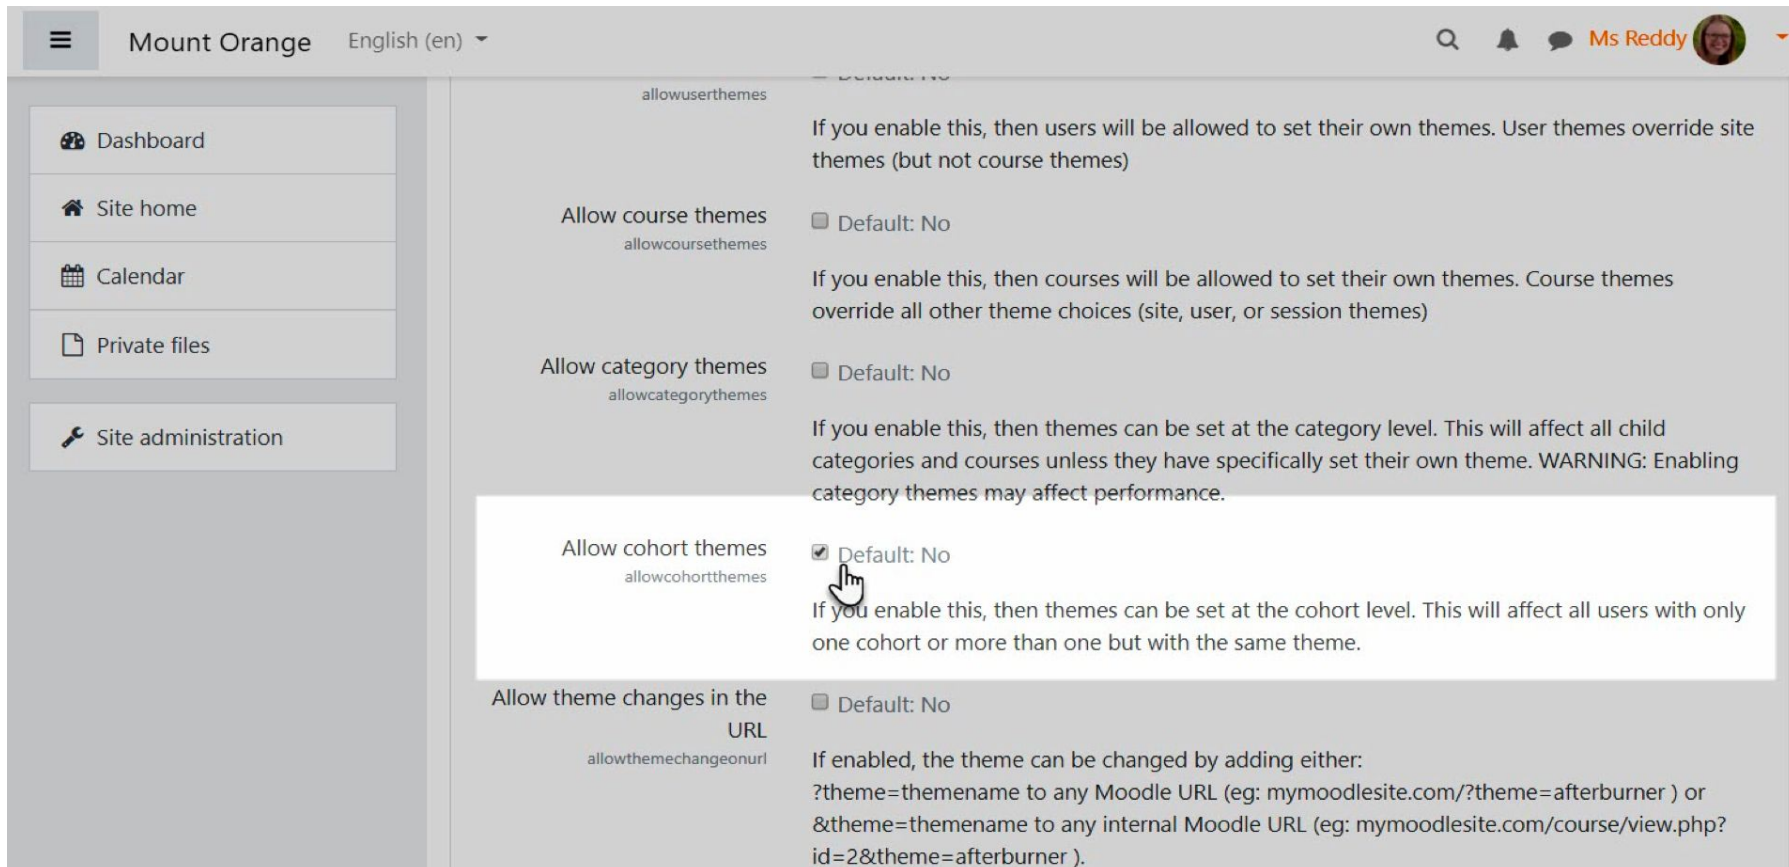

Assignment and Grade Services

Enables passing of assignment results from the tool back to the LMS.

Cohort themes

- Assign a theme to cohorts

The screenshot shows the Moodle Mount Orange site administration interface. The left sidebar contains navigation links: Dashboard, Site home, Calendar, Private files, and Site administration. The main content area displays several site settings. The 'Allow cohort themes' setting is highlighted with a white background. A mouse cursor is pointing at the 'Default: No' checkbox, which is currently checked. The setting description states: 'If you enable this, then themes can be set at the cohort level. This will affect all users with only one cohort or more than one but with the same theme.'

Mount Orange English (en) Ms Reddy

allowuserthemes
If you enable this, then users will be allowed to set their own themes. User themes override site themes (but not course themes)

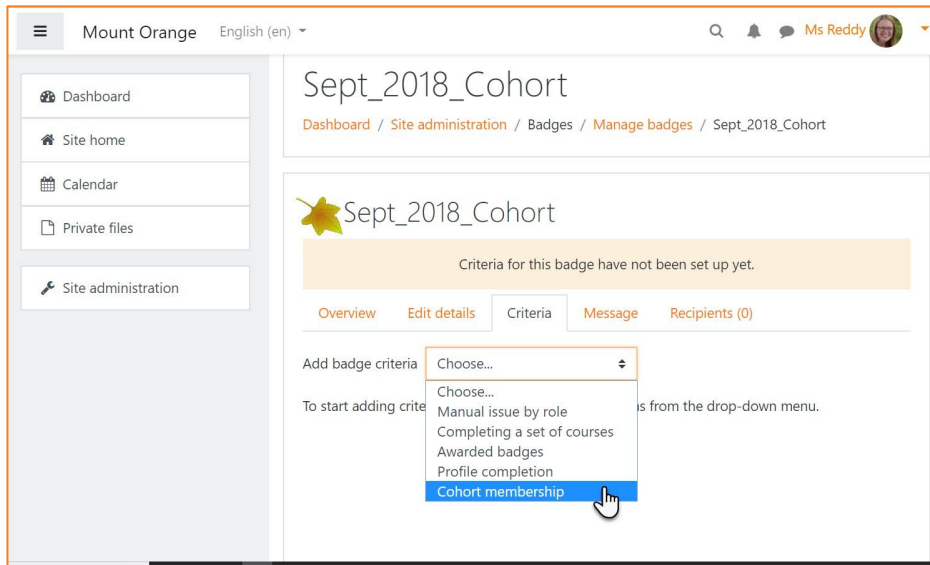

Allow course themes
allowcoursethemes
☐ Default: No
If you enable this, then courses will be allowed to set their own themes. Course themes override all other theme choices (site, user, or session themes)

Allow category themes
allowcategorythemes
☐ Default: No
If you enable this, then themes can be set at the category level. This will affect all child categories and courses unless they have specifically set their own theme. WARNING: Enabling category themes may affect performance.

Allow cohort themes
allowcohortthemes
☒ Default: No
If you enable this, then themes can be set at the cohort level. This will affect all users with only one cohort or more than one but with the same theme.

Allow theme changes in the URL
allowthemechangeonurl
☐ Default: No
If enabled, the theme can be changed by adding either:
?theme=themename to any Moodle URL (eg: mymoodlesite.com/?theme=afterburner) or
&theme=themename to any internal Moodle URL (eg: mymoodlesite.com/course/view.php?id=2&theme=afterburner).

 **Mark Ellis**

Quiz History of Vegetarianism

Question Main course recipe

Question 4
Complete
Marked out of 1.00

Add your vegetarian main course recipe here

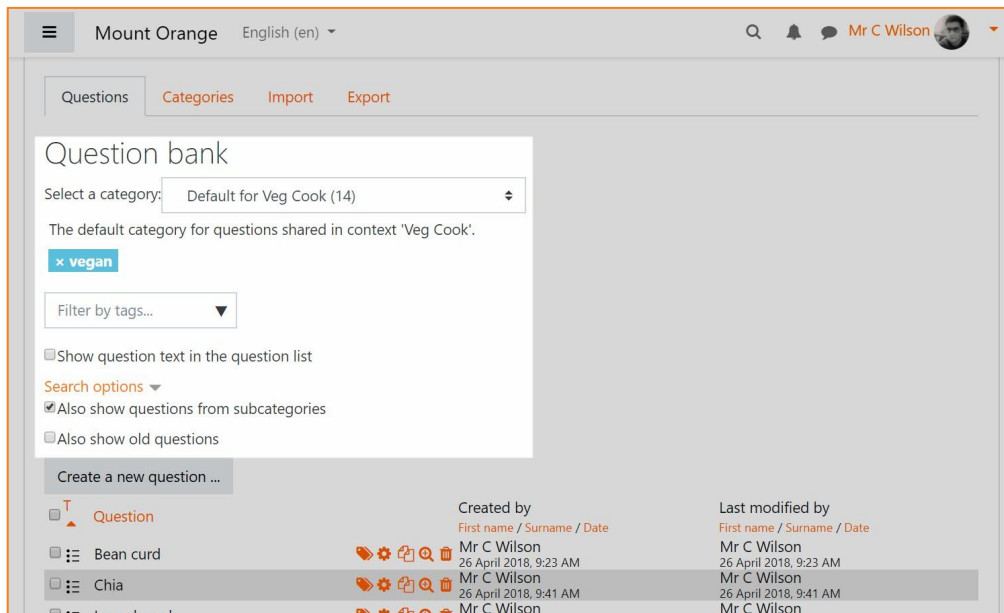

1. Carrot and Lentil soup courtesy of BBC Good Food:

- Heat a large **saucepan** and dry-fry the cumin seeds and chilli flakes for 1 min, or until they start to jump around the pan and release their aromas. Scoop out about half of the seeds with a spoon and set aside. Add the oil, carrot, lentils, stock and milk to the pan and bring to the boil. Simmer for 15 mins until the lentils have swollen and softened.
- Whizz the soup with a **stick blender** or in a **food processor** until smooth (or leave it chunky if you prefer). Season to taste and finish with a dollop of yogurt and a sprinkling of the reserved toasted spices. Serve with warmed naan breads.

Choice results display alert

The screenshot shows a Moodle interface for a Choice activity. At the top, the navigation bar includes 'Mount Orange', 'English (en)', a notification bell, and the user 'Barbara Gardner'. The activity title is 'Reasons for becoming vegetarian'. Below the title, a message asks: 'What is the PRIME reason you did or would become vegetarian? Make your selection below.' A light blue alert box states: 'Anonymous results will be published after the activity is closed.' There are five radio button options: 'I don't like animals being killed for food', 'I don't like the taste of meat', 'Health reasons (allergies, etc)', 'Economic reasons', and 'Other'. The 'Health reasons (allergies, etc)' option is selected, and a mouse cursor is hovering over it. An orange 'Save my choice' button is located below the options. At the bottom, there are links for 'Cookery news' and 'History of Vegetarianism', and a 'Jump to...' dropdown menu.

- Students informed how Choice results will display
