How does this all work?

- Use and abuse Navigation API

How does this all work?

- Use and abuse Navigation API
- Collapse nodes with special CSS and JS

What will the future bring?

- Fix problems introduced by core changes

What will the future bring?

- Fix problems introduced by core changes
- Improve performance

What will the future bring?

- Fix problems introduced by core changes
- Improve performance
- Align my courses list with Dashboard

One more thing

Some goals simply
could only be solved
within our theme:
Boost Campus
