

ASSIGNMENT FILE TYPE RESTRICTIONS

Improvements for assignments in Moodle 3.3 make grading and management easier!

- Teachers now have more control over the types of files that students submit in assignments - either in any readable types or specified according to your assignment submission requirements. This can help make grading and assignment management much easier.
- If a student attempts to upload an assignment in a format not specified, Moodle will provide them with a warning note to say their file type is not accepted and to try again with the acceptable format.

To see how the new improvements in activities work in Moodle 3.3, check out our step by step video at youtube.com/moodle
