

ASSIGNMENT ANNOTATING & FEEDBACK

Make **assignment annotating** and **feedback easier** to **read** and **access**

- Annotating assignments is now enhanced in Moodle 3.3 with the possibility of collapsing and expanding comments.
- This feature gives teachers the option of writing comprehensive feedback on assignments that can be collapsed so it won't block over the original text. This then makes reading feedback easier for students.
- Thank you to Moodle community member, Tony Butler, for working on this new improvement with us.
- Enjoy adding comprehensive comments when annotating assignment submissions and being able to collapse them for greater readability.

To see how the new improvements in activities work in Moodle 3.3, check out our step by step video at youtube.com/moodle
