

IMPROVED DASHBOARD

A new course overview block, voted for by the Moodle Users Association, improves the dashboard by clearly displaying **course progress** and easy links to **upcoming activities**.

This new feature will provide **educators and learners easier, faster access** to all the things that they need on their Moodle site.

MOODLE INTEGRATION

Moodle's integration with **Google G-Suite** and **Microsoft Office** means **easier, faster** access to all of the tools that teachers and students need, and the ability to **open documents from other systems** while on your Moodle site.

ACTIVITY COMPLETION ENHANCEMENTS

Activity completion enhancements in Moodle 3.3 will allow **teachers to manually change default settings** or **update it through the bulk update option**.

This feature will make **courses clearer for students** and also make the course overview in dashboard **show full progress!**

ASSIGNMENT FILE TYPE RESTRICTIONS

NOTICE

This feature can help make grading and assignment management much easier.

Teachers, have more **control** over the **types of files** that students submit in assignments - either in any readable types or specified according to your **assignment submission requirements**.

FONT AWESOME

In Moodle 3.3, our previous small icons have been replaced by images from the popular **Font Awesome** project, contributing to improved **performance** and **efficiency** when using Moodle pages!

Font Awesome means having images that look great at any size, on any screen resolution and improved access for those with poor vision from high contrast colour (**to AAA standard**).

EMOJI SUPPORT

Moodler 1

Moodle 3.3's increased support for **emojis** makes it work more naturally for a **wider variety of languages**, such as Japanese, Chinese and Korean. 🇯🇵 5:10pm

Moodler 2

You can also **use emojis** everywhere that **text can be entered** - forum posts, messaging - both on the **web** and in our **Moodle Mobile App!** 🇯🇵 5:15pm
